## Joluka Circular Plastic Spacer Datasheet

### Plastic Spacer Technical Datasheet

#### Product Description

The Joluka Circular Plastic Spacers are used for vertical reinforcements such as walls and columns and offer good stability. The clip-on design accommodates steel diameters of 4-16mm. The design of the Joluka Plastic Spacer does not obstruct concrete flow and ensures minimum contact to the formwork. Use approximately 2-4m<sup>2</sup>.

#### Characteristics/Advantages

- ☒ High strength up to 4 KN
- ☒ Manufactured from Recycled High-Density Polypropylene
- ☒ Designed with Clip-On to secure Reinforcing
- ☒ Designed to allow maximum flow of concrete
- ☒ Provides 360° cover
- ☒ Suitable for Reinforcing from 4 - 16mm
- ☒ Minimal Contact to the Shutter
- ☒ Quick and Easy to Install

#### Typical Uses

- ☒ Reinforcement
- ☒ All types of applications on site or in the pre-cast concrete yard
- ☒ Suitable for most reinforcing applications

#### PRODUCT DATA

Colour :	Grey
Packaging:	Bags
Storage Conditions:	Store away from direct sunlight, will become brittle.
Composition:	Concrete
