

JOLUKA

Joluka Concrete Spacer Datasheet

Concrete Spacer Technical Datasheet

Product Description

The **Joluka Concrete Spacer** is a specially formulated Concrete Product that is manufactured in a controlled environment in order to achieve the following:

Characteristics/Advantages

High strength up to 50MPA

Binds well with surrounding concrete.

Same expansion as surrounding concrete.

High chemical resistance.

Minimal water absorption.

Fire proof.

Ideal for off-shutter concrete as Fibre Cement Products are similar in colour to surrounding concrete.

More cost effective by using less fibre cement spacers per m² than plastic.

Certified strength to withstand extreme rebar weights or pressure.

Embedded fixing wire for easy fixing to rebar.

Quick and easy to install.

Typical Uses

Reinforcement

all types of applications on site or in the pre-cast concrete yard

Suitable for light reinforcing applications

PRODUCT DATA

Colour :	Grey
Packaging:	Bags
Storage Conditions:	Store away from direct sunlight, will become brittle.
Composition:	Concrete
